ISSUE MISSION

OAP

▶ Select one expended friendly **SPECTRE SQUAD** operative (excluding **VOX-RELAY BEACON**) visible to this operative that hasn't interrupted an enemy operative's activation with the Elite Fieldcraft faction rule this turning point. Until the end of the turning point, that friendly operative can do so even though it's expended (taking precedence over the normal rules). However, if it does, it cannot counteract during the turning point, or perform the **Reposition** action if it's already done so this turning point.

◆ This operative cannot perform this action while within control range of an enemy operative.

🔪🔪🔪 Lasrifle	4	3+	2/3	Heavy (Reposition only), Lethal 5+
🔪 Gun butt	3	4+	2/3	-

Medic!: The first time during each turning point that another friendly **SPECTRE SQUAD** operative (excluding **VOX-RELAY BEACON**) would be incapacitated while visible to and within 3" of this operative, you can use this rule, providing neither this nor that operative is within control range of an enemy operative. If you do, that friendly operative isn't incapacitated, has 1 wound remaining and cannot be incapacitated for the remainder of the action. After that action, that friendly operative can immediately perform a free **Dash** action, but must end that move within this operative's control range. Subtract 1 from this and that operative's APL stats until the end of their next activations respectively, and if this rule was used during that friendly operative's activation, that activation ends. You cannot use this rule if this operative is incapacitated, or if it's a **Shoot** action and this operative would be a primary or secondary target.

🔫 Lasrifle	4	3+	2/3	Heavy (Reposition only), Lethal 5+
🔫 Gun butt	3	4+	2/3	-

Grenadier: This operative can use frag, krak, and smoke grenades (see universal equipment). Doing so doesn't count towards any limited uses you have (i.e. if you also select those grenades from equipment for other operatives). Whenever this operative is using a frag or krak grenade, improve the Hit stat of that weapon by 1.

Melta Mine: This operative is carrying your Melta Mine marker. It can perform the **Pick Up Marker** action on that marker, and whenever it performs the **Place Marker** action on that marker, it can immediately perform a free **Dash** action. That marker cannot be placed within an enemy operative's control range (if this operative is incapacitated while carrying that marker and that marker cannot be placed, it's removed with this operative).

Proximity Mine: The first time your Melta Mine marker is within another operative's control range, remove that marker and inflict 2D6+3 damage on that operative; if it isn't incapacitated, end its action (if any), even if that action's effects aren't fulfilled. If it cannot be placed, move it the minimum amount to do so. Note that this operative is ignored for these effects (i.e. it cannot set it off or take damage from that marker).

Prepared Killzone: You can select one additional equipment option, but it must be an Ammo Cache or an equipment terrain feature (see universal equipment).

Scout Terrain: Terrain features within your territory or within 3" of this operative are scouted for friendly **SPECTRE SQUAD** operatives. Once in each of their activations, friendly **SPECTRE SQUAD** operatives can do one of the following:

- Ignore the first vertical distance of 2" it moves during one climb up if the terrain feature is scouted for friendly **SPECTRE SQUAD** operatives.
- Perform the **Operate Hatch** action for 1 less AP if the access point is scouted for friendly **SPECTRE SQUAD** operatives.

WOUNDS
🔪 3

Pre-Deploy: In the Set Up Operatives step, this operative can be set up outside of your drop zone. It must be set up in a location it can be placed, wholly within your territory and more than 2" from markers and equipment terrain features.

Expendable: This operative cannot perform any actions other than **Signal**. It cannot counteract, retaliate or assist in a fight.

This operative cannot contest markers or areas of the killzone, and is ignored for your opponent's kill/elimination op (when it's incapacitated, and when determining your starting number of operatives). It's also ignored for victory conditions and scoring VPs if either require operatives to 'escape', 'survive' or be incapacitated by enemy operatives (if it escapes/survives/is incapacitated, determining how many operatives must escape/survive/be incapacitated, etc.).

Operatives can move through this operative. Your opponent can ignore this operative's control range at any time. Whenever a friendly **SPECTRE SQUAD** operative is performing the **Shoot** action and you're selecting a valid target, you can ignore this operative's control range. Note that control range wouldn't be mutual when ignored.
