Holy Defender: Once per turning point, when a friendly **CELESTIAN INSIDIANT** operative visible to and within 2" of this operative is selected as the valid target of a **Shoot** action or to fight against during the **Fight** action, you can use this rule. If you do, this operative becomes the valid target or is fought against (as appropriate) instead (even if it wouldn't normally be valid for this). If it's the **Fight** action, treat this operative as being within the fighting operative's control range for the duration of that action. If it's the **Shoot** action, this operative is only in cover or obscured if the original target was.

This rule has no effect if it's the **Shoot** action and the ranged weapon has the Blast or Torrent weapon rule.

Virge of Admonition Icon Bearer: Whenever determining control of a marker, treat this operative's APL stat as 1 higher. Note this isn't a change to its APL stat, so any changes are cumulative with this.

Null Field: This operative starts the battle with a null range of 1". Whenever an enemy operative is within null range of this operative, subtract 2" from the Move stat of that enemy operative and worsen the Hit stat of its weapons by 1 (this isn't cumulative with being injured).

NULLIFYING RITUAL

1AP

- ▶ Add 1 to this operative's null range (to a maximum of 5"). Nullification tokens in the marker/token guide are numbered, so use the numbered token equal to this operative's null range.
- ◆ This operative cannot perform this action while within control range of an enemy operative, or more than once per turning point.

Inspirational Pyre: Once per turning point, when this operative inflicts damage on an enemy operative with either profile of its hand flamer but doesn't incapacitate it, you can use this rule. If you do, you can select one friendly **CELESTIAN INSIDIANT** operative within 6" of this operative to become **INSPIRING**.

¹ Note that Torrent 0" means you cannot select secondary targets, but this weapon still has the Torrent weapon rule for all other rules purposes, e.g. the Condensed Stronghold rule (see *Killzone: Volkus, Kill Team Core Book*).

Blessed broadsword

Lethal 5+, Brutal

Zealous Ultimatum: Once per battle **STRATEGIC GAMBIT**. Select one enemy operative within 8" of this operative and issue an ultimatum to it. Your opponent must accept or decline that ultimatum (if it's a non-player operative, roll one D6: on a 4+, the ultimatum is accepted, otherwise it's declined).

If the ultimatum is accepted, whenever this operative is fighting against or retaliating against that enemy operative, add 1 to the Atk stat of this operative's blessed broadsword. The first time this operative incapacitates that enemy operative while fighting or retaliating during the battle, add 1 to the Atk stat of this operative's blessed broadsword until the end of the battle. In either case, this is to a maximum of 5.

If the ultimatum is declined, whenever that enemy operative is fighting against or retaliating against a friendly **CELESTIAN INSIDIANT** operative, subtract 1 from the Atk stat of that enemy operative's weapons.
