Zealous Ultimatum: Once per battle **STRATEGIC GAMBIT**. Select one enemy operative within 8" of this operative and issue an ultimatum to it. Your opponent must accept or decline that ultimatum (if it's a non-player operative, roll one D6: on a 4+, the ultimatum is accepted, otherwise it's declined).

If the ultimatum is accepted, whenever this operative is fighting against or retaliating against that enemy operative, add 1 to the Atk stat of this operative's blessed broadsword. The first time this operative incapacitates that enemy operative while fighting or retaliating during the battle, add 1 to the Atk stat of this operative's blessed broadsword until the end of the battle. In either case, this is to a maximum of 5.

If the ultimatum is declined, whenever that enemy operative is fighting against or retaliating against a friendly **CELESTIAN INSIDIANT** 🧠 operative, subtract 1 from the Atk stat of that enemy operative's weapons.

Bladed Stance: Whenever this operative is fighting or retaliating, you can resolve one of your successes before the normal order. If you do, that success must be used to block.
