

# STRATEGY PLOY

## RIDE THEM DOWN

Drakesteeds are large and ferocious beasts, utterly deadly when their slashing talons and rending fangs are magnified by crushing impact.

Once during each friendly **EXODITE DRAGON MASTER**  **MOUNTED** operative's activation, whenever it ends its move during the **Sprint** action:

- If it moved 4" or more during that action, you can inflict 1 damage on one enemy operative within its control range.
- If it moved 7" or more during that action, or it's a **CLANBLADE** operative, you can inflict D3 damage on one enemy operative within its control range instead.
