***Mindburn:** In the Resolve Attack Dice step, if you inflict damage with any critical successes, the operative this weapon is being used against gains one of your Mindburn tokens (if it doesn't already have one) until the end of its next activation, until it's incapacitated or until a friendly operative uses this weapon again (whichever comes first). Whenever an operative has one of your Mindburn tokens, worsen the Hit stat of its weapons by 1 (this isn't cumulative with being injured).

▶ **PSYCHIC.** Select one enemy operative visible to this operative. Until the start of this operative's next activation, until it's incapacitated or until this action is performed again by a friendly operative (whichever comes first), that enemy operative gains one of your Alight tokens (if it doesn't already have one). Whenever a friendly **WARPCOVEN** operative is shooting against, fighting against or retaliating against an enemy operative that has one of your Alight tokens, that friendly operative's weapons have the Ceaseless weapon rule.

◆ This operative cannot perform this action while within control range of an enemy operative.
