Nuncio-aquila:

- Whenever an enemy operative is within 3" of your Nuncio-aquila marker (or this operative if your Nuncio-aquila marker isn't in the killzone), your opponent must spend 1 additional AP for that enemy operative to perform the **Pick Up Marker** and mission actions.
- Whenever determining control of a marker, treat the total APL stat of enemy operatives that contest it as 1 lower if at least one of those enemy operatives is within 3" of your Nuncio-aquila marker (or this operative if your Nuncio-aquila marker isn't in the killzone). Note this isn't a change to the APL stat, so any changes are cumulative with this.

- ▶ If your Nuncio-aquila marker isn't in the killzone, place it within 6" horizontally of this operative; otherwise, move your Nuncio-aquila marker up to 6" horizontally. If this operative is removed from the killzone, remove your Nuncio-aquila marker from the killzone.
- ◆ This operative cannot perform this action while within control range of an enemy operative.
