

HIEROTEK CIRCLE

FACTION RULE

REANIMATION PROTOCOLS

The body of a slain Necron becomes wreathed in an eerie glow. Severed limbs reattach and broken bodies reform in a shower of emerald sparks. Eye-lenses flicker once more and the Necron rises again to rejoin the fight.

The first time each friendly **HIEROTEK CIRCLE ** operative is incapacitated, before it's removed from the killzone, place one of your Reanimation markers within its control range. Then remove it as incapacitated, also removing any tokens and rules effects it had (e.g. **CHRONOMANCER** operative's **Chronometron** action, Poison tokens, APL stat changes, being implanted, etc.).

In the Ready step of each Strategy phase, select one of your Reanimation markers and roll one D6: on a 1-2, leave that Reanimation marker in the killzone and repeat this process with a different one of your Reanimation markers (if any); on a 3+, an operative is **REANIMATED**.
