GUARDSMEN ORDERS

Dig In!

Obstinate to the last, the soldiers of Krieg establish defensive positions and hold them with grim determination.

Whenever an operative is shooting a friendly operative that's received this order, if you can retain any cover saves, you can re-roll any of your defence dice results of one result (e.g. results of 2).

Move! Move! Move!

Responding to a barked order from their Watchmaster, the soldiers of Krieg pick up the pace and hustle towards their next objective.

Whenever an operative that's received this order is performing the **Reposition** action, add 1" to its Move stat.
